## EDUCATION

### Yuba College

*Pursuing Bachelors in Computer Science*

Yuba City, CA

Aug. 2023 – May 2027

### Yuba College

*Dual Enrolled Associate's in Behavioral Sciences*

Yuba City, CA

Aug. 2019 – May 2023

## EXPERIENCE

### Information Technology Support Specialist

January 2022 – March 2023

*All Hand Car Wash*

Yuba City, CA

- Provided essential hardware support, including troubleshooting and repairing computers, printers, and networking equipment, ensuring smooth operations.
- Managed software installations, updates, and licensing, enhancing the efficiency of daily tasks for staff. Made a fully functioning website for the car washes 4 locations.
- Conducted training sessions for employees on the proper use of software and hardware, improving their tech literacy and minimizing user-related issues.
- Implemented robust data backup procedures and security measures, safeguarding critical company data from loss or breaches.
- Responded promptly to IT issues and service requests, swiftly diagnose and resolve various technical challenges, whether they involved hardware malfunctions, software glitches, or network connectivity issues.
- Introduced innovative solutions, such as a digital scheduling system, streamlining customer bookings and enhancing the customer experience.

### Closing Expert

April 2023 – October 2023

*Target*

Yuba City, CA

- Played a pivotal role in delivering a seamless shopping experience for customers. This included the meticulous organization and restocking of merchandise.
- Took pride in assisting customers with their inquiries, ensuring they had a pleasant and informative shopping experience.
- Collaboration was also a key element of my role. I worked closely with the team to meet and exceed our sales targets, contributing to the store's overall success.

## PROJECTS

### To-Do App | *HTML, CSS, JavaScript*

June 2023 – July 2023

- Created a to-do app with a simple and user-friendly interface that makes adding, managing, and prioritizing tasks a breeze.
- Allows you to efficiently manage tasks by adding due dates, organizing them into categories, and setting reminders to stay organized.
- Built with HTML, CSS, and JavaScript, it's accessible on various devices, ensuring you can manage tasks seamlessly on your desktop, tablet, or smartphone.

### Calculator | *HTML, CSS, Python*

May 2023 – June 2023

- Created a calculator app using HTML, CSS, and Python Flask, ensuring it works smoothly on both desktop and mobile devices.
- My app provides real-time calculations, allowing users to see instant results as they input numbers and operations.
- With Python Flask as the backend, my app handles complex calculations efficiently, making it a powerful tool for users.
